

**Senior Exit Survey Report**  
**Special Education Program**  
**2024-2025**

This report summarizes the analysis of data regarding the Senior Exit Survey for the Special Education Program (SEP) for the Academic year 2024-2025. The survey consisted of 34 multiple choice items and 1 open-ended question. The survey covered six main categories: General Demographical Data; Satisfaction with the University of Bahrain Facilities and Support Services; Satisfaction with Overall Experience at UOB: Admissions & Registration Processing and Pre-program Advising; Satisfaction with Teaching and Learning Quality; Satisfaction with Program Intended Learning Outcomes; Satisfaction with the Overall UOB Experience; and Future plans. The data were collected from both male and female students enrolled in the Special Education Program (SEP) for the academic year 2024-2025. All participants are full-time employees outside UOB, in the Ministry of Education, and indicated that their degree is relevant to their job. The findings showed positive attitudes and high satisfaction towards keys aspects in the survey such as the curricular offerings and programs, teaching and learning experiences, achievement of program intended learning outcomes, overall satisfaction with the University of Bahrain (UOB) experience, and graduates' plans following program completion. The program effectively prepares graduates for professional roles in special education.
